## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 1-4,7-9,17-19,26-27,30-32,52-55,58-64,66-71,73-77 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art shows an acoustic wave apparatus comprising: a medium for acoustic wave propagation, a transducer formed on the medium made of piezoelectric material and a first and second light source illuminating (LED) the medium and reading a selective frequency from the component of the acoustic wave and varying the velocity of the acoustic wave.

However, Prior art fails to show an acoustic wave apparatus and Method for modifying the characteristic of an acoustic wave comprising: the step of illuminating the medium using a laser diode during the propagation of the acoustic wave, varying an intensity of a light generated by the first light source (LED) and second light source (laser diode) with a controller or a light modulator. Prior art also fails to show, a medium comprising a substrate material for propagating the acoustic wave having at least one velocity and Wave length dependent upon the selected characteristic of the light source and reading a selective frequency component of the acoustic wave comprising a transducer coupled to receive an acoustic wave propagated by the medium and produce therefrom an electronic signal dependent upon the selected frequency of the acoustic wave.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karen B Addison whose telephone number is 703-306-5855. The examiner can normally be reached on 8:00 to 4:30.
